GPA

3.8 / 4.0

### Minor in Sustainable Environments

California Polytechnic State University - San Luis Obispo

### Minor in Architectural Engineering

California Polytechnic State University - San Luis Obispo

## ABOUT ME

I am a fourth year at the California Polytechnic State University in San Luis Obispo majoring in architecture with minor in sustainable environments and architectural engineering. I am obsessed with learning new things and extremely open minded to wealth of knowledge that those around me and the world can teach me. This has given me a great appreciation for the environment, both natural and fabricated. I think all of this has allowed me to become a quick learner and always put in full effort in order to match the level of perfection that I adore so much in the environment around me.
